

MDR Tracking Number: M5-04-3757-01

Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective June 17, 2001 and Commission Rule 133.305 titled Medical Dispute Resolution - General and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division (Division) assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent. The dispute was received On June 28, 2004.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with §133.308(r)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$460.00** for the paid IRO fee. For the purposes of determining compliance with the order, the Commission will add 20 days to the date the order was deemed received as outlined on page one of this order.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The functional capacity evaluation was found to be medically necessary. The respondent raised no other reasons for denying reimbursement for the above listed service.

On this basis, and pursuant to §§402.042, 413.016, 413.031, and 413.019 of the Act, the Medical Review Division hereby ORDERS the respondent to pay the unpaid medical fees in accordance with the fair and reasonable rate as set forth in Commission Rule 133.1(a)(8) plus all accrued interest due at the time of payment to the requestor within 20 days of receipt of this order. This Order is applicable to date of service 02-19-04 in this dispute.

The respondent is prohibited from asserting additional denial reasons relative to this Decision upon issuing payment to the requestor in accordance with this Order (Rule 133.307(j)(2)).

This Order is hereby issued this 24th day of August 2004.

Specialty IRO has been certified by the Texas Department of Insurance as an Independent Review Organization. The Texas Worker's Compensation Commission has assigned this case to Specialty IRO for independent review in accordance with TWCC Rule 133.308, which allows for medical dispute resolution by an IRO.

Specialty IRO has performed an independent review of the care rendered to determine if the adverse determination was appropriate. In performing this review, all relevant medical records and documentation utilized to make the adverse determination, along with any documentation and written information submitted, was reviewed.

This case was reviewed by a licensed Chiropractor. The Specialty IRO health care professional has signed a certification statement stating that no known conflicts of interest exist between the reviewer and any of the treating doctors or providers or any of the doctors or providers who reviewed the case for a determination prior to the referral to Specialty IRO for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to the dispute.

CLINICAL HISTORY

___ was injured on ___ while employed for ___. He was injured when he fell after stepping on a piece of metal. ___ underwent treatment with Dr. L until he was sent for an FCE with Dr. T, DC to determine the medical necessity of a return to work program. The FCE was performed indicating the patient was not at the proper PDL. This examination was denied by the carrier via peer review and extent of injury. The peer review was performed by Dr. D, MD. The report was apparently not included with the explanation of benefits. The patient was apparently authorized for a return to work program by the carrier. The designated doctor, Dr. K, MD indicates that an FCE was performed but that he didn't have access to this report. Dr. K further indicates that further chiropractic physical therapy should be continued as needed. The treating doctor assigned MMI on 6/8/02 with a 10% impairment following the return to work program.

DISPUTED SERVICES

Disputed services include the retrospective medical necessity of a functional capacity evaluation.

DECISION

The reviewer disagrees with the previous adverse determination.

BASIS FOR THE DECISION

The reviewer indicates that the patient had been out of work for approximately nine months at the point that the FCE was performed. Generally speaking, most patients/workers would be deconditioned at this point and require some form of a return to work program. The FCE was a vital aspect of determining the need for such a program according to Industrial Rehabilitation, Techniques for Success by R. Saunders, MS. PT.

Specialty IRO has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. Specialty IRO has made no determinations regarding benefits available under the injured employee's policy. Specialty IRO believes it has made a reasonable attempt to obtain all medical records for this review and afforded the requestor, respondent and treating doctor an opportunity to provide additional information in a convenient and timely manner.

As an officer of Specialty IRO, Inc, dba Specialty IRO, I certify that there is no known conflict between the reviewer, Specialty IRO and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

Sincerely,
